

EERI Student Chapter at UC Davis

Informational and Welcome Session

Thursday, October 10, 2:30-3:30pm

1007 Ghausi Hall

We want to invite civil engineering students in their junior and senior years who are interested in earthquake engineering to an info session of the EERI Student Chapter at UC Davis.

The Earthquake Engineering Research Institute (EERI) is a national, non-profit, multi-disciplinary organization that connects researchers, practitioners and students with an interest in reducing earthquake risk. In this info session, we will talk more about EERI, its mission, and the activities that the student chapter will organize.

If you have any questions, please contact Jin Zhou (zjjzhou@ucdavis.edu) or Francisco Humire (fahumire@ucdavis.edu).

For more information about EERI and the EERI Undergraduate Seismic Design Competition, please visit: <https://www.eeri.org> and <https://slc.eeri.org/>
