Summer Undergraduate Research Fellowship Program

The University of Michigan Frankel Cardiovascular Center is pleased to offer a 10-week fellowship program starting in May 2020 to support undergraduate students interested in cardiovascular research. Each fellow will be matched to a laboratory led by a FCVC faculty member and participate in nationally recognized research in areas such as atherosclerosis, genetic cardiomyopathies, blood clotting disorders, cardiac arrhythmias, vascular biology, and heart failure.

SURF at the FCVC!

The University of Michigan Frankel Cardiovascular Center is pleased to offer a 10-week fellowship program starting in May 2020 to support undergraduate students interested in cardiovascular research. Each fellow will be matched to a laboratory led by a FCVC faculty member and participate in nationally recognized research in areas such as atherosclerosis, genetic cardiomyopathies, blood clotting disorders, cardiac arrhythmias, vascular biology, and heart failure.
