

## Early Career Opportunities at the Advanced Research Projects Agency – Energy (ARPA-E)

[The Advanced Research Projects Agency-Energy](#) (ARPA-E) is an agency within the U.S. Department of Energy that funds creative, out-of-the-box, transformational energy technologies that are too early stage for private investment. ARPA-E programs provide top energy researchers with funding, technical assistance, and tech-to-market guidance to radically improve U.S. energy security, energy efficiency, and environmental well-being. The driving question behind all ARPA-E programs is “*If it works, will it matter?*”

### ARPA-E FELLOWS POSITION – NOW ACCEPTING APPLICATIONS

ARPA-E is looking for the next generation of scientific leaders to help solve the most pressing and exciting challenges in energy. ARPA-E Fellows bring a wealth of new ideas, using technical and economic analyses to help the agency identify potential breakthrough energy technologies.

During their two-year tenure, Fellows advance American energy innovation, engaging with world-class researchers in academia and industry, entrepreneurs and government officials.

Prior experience in energy and/or commercialization is not required. A doctoral degree and US citizenship are required.
